

Maier Foundation, Inc.

The Maier Foundation, Inc. is a private, nonprofit, charitable corporation based in Charleston. Founded in 1958 by philanthropist William J. Maier, Jr., the Maier Foundation focuses on the furtherance of higher education in West Virginia and on higher education of West Virginia residents attending colleges and universities elsewhere. In recent years, the Maier Foundation has established the West Virginia Emulation Endowment Trust's Allan L. McVey Scholarship at WVSU and the Maier Foundation Scholarship for students from areas of West Virginia affected by the recent flooding and southern counties affected by the downturn in the coal industry. This year, the Maier Foundation has made a generous new commitment to support the launch of a nursing program at WVSU.
