

Helen Wood Poffenbarger and Perry S. Poffenbarger Foundation

Perry S. Poffenbarger, an attorney, electrical engineer, and inventor, and Helen W. Poffenbarger, an elementary school teacher, created the Poffenbarger Foundation to assist students in attaining an education that would lead to rewarding job opportunities. Poffenbarger Foundation trustees John T. and Susan Poffenbarger have provided generous funding for The Poffenbarger Foundation Scholarship at WVSU, and have contributed to WVSU's mission through generous personal contributions and through John's service on the WVSU Foundation Board of Directors.
